From today's Mercedes meeting:

Klaus is in town tomorrow and would like some of your time concerning diesel SCR MOU's and PHEV's. I believe he is flying back Friday.

Mercedes is very concerned that others may not be exploring urea availability to the same extent Mercedes has with its MOU.

Klaus also would like to know where we are with PHEV's. I tried to give him a 5 minute update as we walked out. If we follow OGC's recommendations (listing

Deliberative Process / Ex. 5
